**Summary of reasons  
for classification:**

The computer text file printout *earlyeddi3.html* is classified as:  
Objectionable.

The printout promotes and supports the exploitation of children, or young persons, or both, for sexual purposes. It contains a fictional story that portrays children as being highly sexually precocious, and emotionally and physically ready to engage in adult sexual activity with other children or young persons. The writing style is explicit, vernacular and intended to excite and arouse readers.

The classification of this publication interferes with the freedom of expression, but this is an outcome that is consistent with Parliament's intention that publications falling under s3(2) are deemed to be objectionable. The classification is also a reasonable limitation on the freedom of expression that reflects the concern of a free and democratic society to limit the availability of publications that promote and support the exploitation of children, or young persons, or both, for sexual purposes.
